

Personal Finance and Lending

Let us help you find the best financing option for you

Finance and lending is something that we all need at one time or another, but due to the application process complexity it is often something we dread asking for. At Nexia we try and make the application process for finance as easy as possible.

Our team are trained in identifying risk factors upfront which means we can save you time by stream lining the paperwork process and also give you the best chance of applying with the right organisation. As we are not affiliated with any one lending organisation we will also research based on your unique circumstances to find the very best and most cost-effective option for you.

Our finance and lending options

Self-Managed Super Fund

(SMSF) lending through a Limited Recourse borrowing Arrangement (LRBA)

Personal Loans

- debt consolidation
- car loans

Residential

- owner occupied
- investment properties
- refinance
- cash out
- first home buyers
- construction loans
- house and land packages
- investment loans

How we can help you

At Nexia we prioritise our clients and work closely with them in order to provide them with the best quality financial advice.

- We only recommend lender options that are in your best interest.
- We can contact and negotiate with different financial institutions on your behalf to ensure you can get the best possible rate available.
- We have the knowledge of which lender best suits your personal situation i.e. how lenders assess your particular income.
- Liaise with third parties such as Conveyancers and Accountants in order to ensure the smooth process of your lending needs.
- We assist you in every step of the lending process, from borrowing capacity all the way through to settlement.
- We can save you time and energy! Therefore you can spend more time on the things you enjoy rather than worrying about acquiring the best deal on the market.

Ongoing Finance and Lending Service

After the loan has settled will actively review this on an annual basis to check in to see if your lending arrangements are adequate for your current situation, needs and objectives.

- A review of your current interest rate against the market to ensure that it is still competitive.
- Any changes to the lending industry that you should be aware of.
- Restructuring and debt consolidation strategies.

We work in conjunction with your overall financial planning goals and we want you to be aware of all the options available to you.

Interested in talking to us?

Please contact one of our financial advisers to organise a complimentary consultation to discuss your finance and lending needs.
